### Wonder what the metaverse is?

#### The Metaverse = Combinatorial Innovation

15 © 2022 Gartner, Inc. and/or its affiliates. All rights reserved. Gartner is a registered trademark of Gartner, Inc. and its affiliates.

#### Progression in digital avatars and hyperpersonalization.

From a generic character...

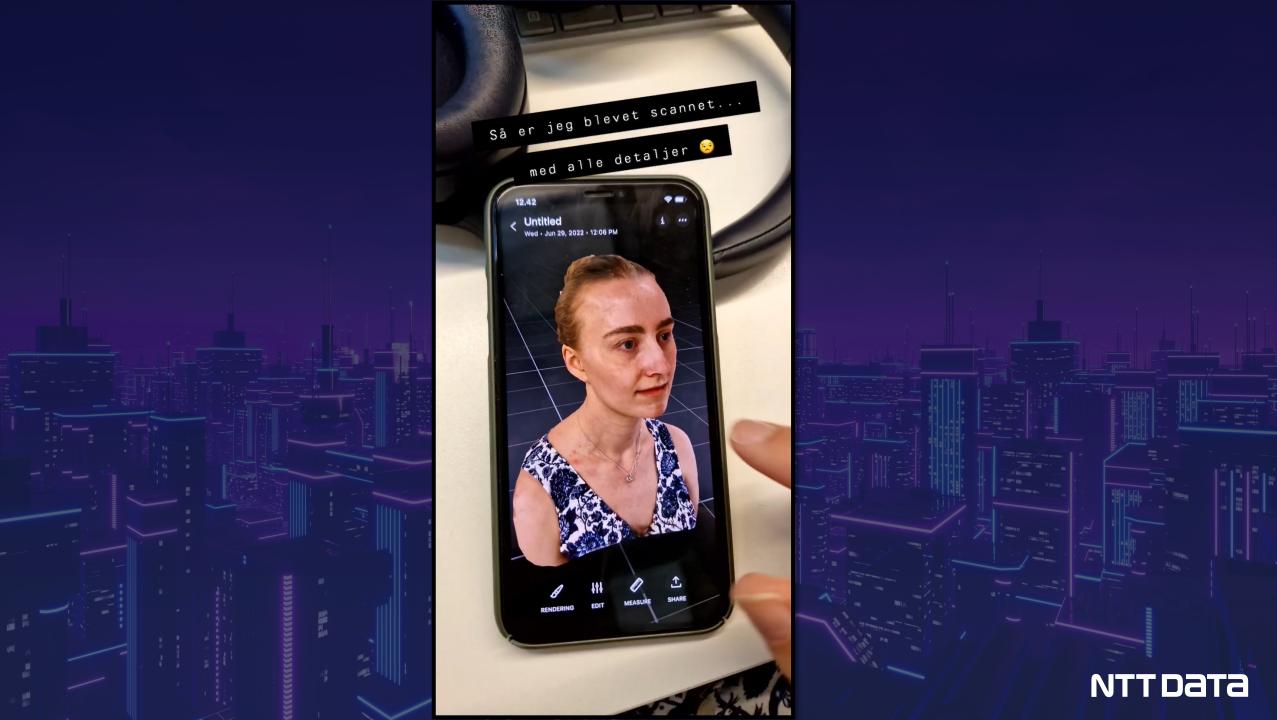

#### ...to photorealistic versions of the real human

### THE POWER OF A SMILE

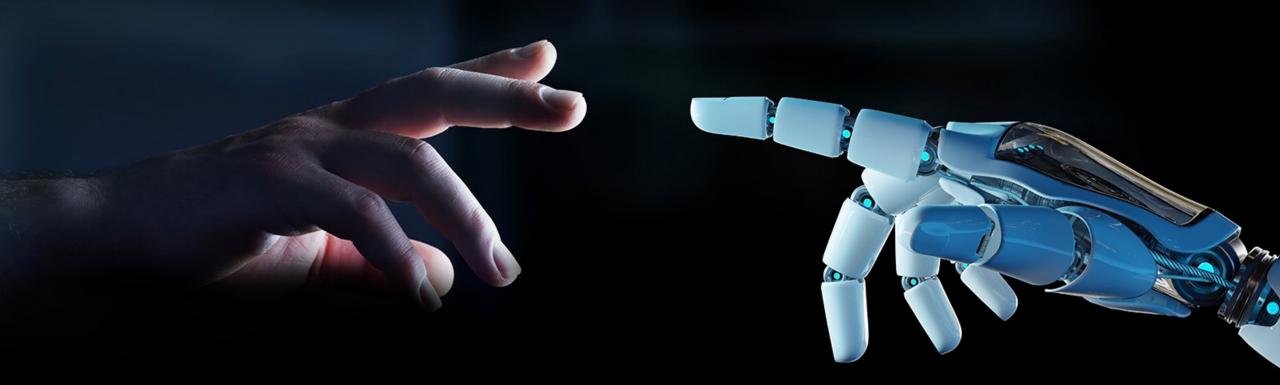

### "... emotionally connected customers are more than twice as valuable as "highly satisfied" customers."

- Harvard Business Review

### The BIG 'M' & small 'm'

The small ,m' is TODAY Meta rooms | Siloed experiences | Often centralized

The BIG ,M' is 10 years from now Interconnected | Decentralized | Persistent 3D experience

#### Today's metaverse

#### Consumer

Enhances the social, entertainment and wellbeing experiences of individuals

#### Commercial

Creates nextgeneration, immersive communication and collaboration between people in a work environment

#### Industrial

Enables humans and Al to work together to design, build, operate and optimize physical systems using digital technologies

# How can you profit from the metaverse?

#### Did you know that...

#### Barbados

has signed an agreement in 2021 to set up an **embassy** in the metaverse? Disney is developing a metaverse theme park? Nike has patented virtual goods as it prepares to enter the metaverse?

Gucci opened

Vault, a metaverse

concept

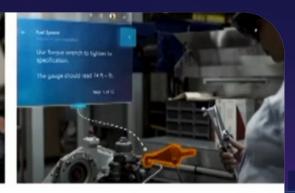

**Store** selling "Supergucci" NFTs BMW announced their **NEW CAI** M240i in Rocket League before they launched it?

NTTData

# Industrial Metaverse Empowering FM teams

#### Remote Support

Reduced downtime
Increased first time fixes
Lessened OEM/vendor visits
Improved client satisfaction
Better employee engagement
Quality improvement and risk reduction

#### **Remote Inspections**

- Remote inspections
- Interactive walkthroughs
- Visual project updates
- Customer escalations
- Remote Gemba's
- Quality improvement and risk reduction (QHSE)
- Inspections

usbactio

#### Immersive Learning

- Faster training
- Improved training effectiveness
- Reduced training costs
- Empowered employees
- Quality improvement and risk reduction
- Knowledge transfer

Knowledge transfe

**NTT DATA** 

#### Getting ready for the metaverse

01

#### Dive in and sense the trend of this new marketplace Create a basic understanding & evaluate the potential

#### 04

#### Risks, Privacy & Security

The decentralisation of the Metaverse brings new challenges and risks due to new experieces and enhanced digital identities. We help you set the right security barriers for the Metaverse. (I.e. Privacy / ethical issues / anonymity etc.)

#### Upskill to resilience

Get your resources up to speed, be aware of the emerging opportunities and test waters.

05

#### **Develop a Strategy**

Reinvent your place in the physical world: Which technologies like VR, AR or digital assets can be employed to close some internal & external gaps. Consider if the metaverse aligns with your target audience and brand.

02

06

#### Enhance brand awareness

Merge the digital and physical worlds, ensure consistent brand experiences and hence, secure future growth of your business through enhanced brand awareness

#### Enrich customer experience

03

Create innovative experiences with a Human-Centered Design approach in a virtual space

07

#### Interconnectedness is the future

The Metaverse is a consumerdriven place. Redefine your relationships with customers, employees and all other stakeholder for improved interactions and experiences. (I.e. remote work etc.)

NTTData

The stereotype of the unchanging, set-in-their-ways older adult has been shattered. Here, elders are viewed as lifelong learners. They are encouraged and supported to learn new skills, new technologies, and new perspectives.

## Are you ready for the metaverse?

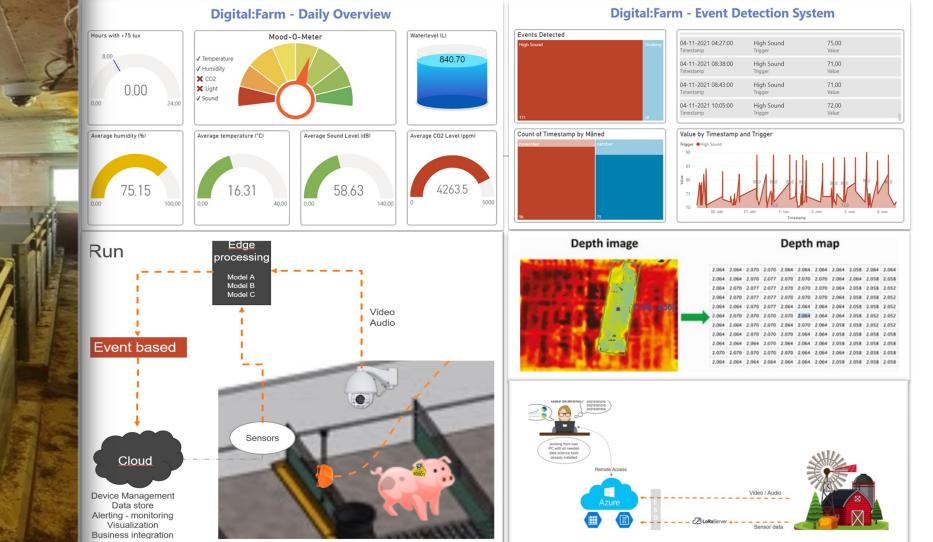

# **HAPPY PIGS IMPROVING** ANMAL WELFARE THROUGH FARM FACILITIES

#### Hours with +75 lux ✓ Humidity X CO2 0.00 🗙 Light Sound Average humidity (%) 75,15 Run Event based Cloud **Device Management** Data store Alerting - monitoring Visualization

#### **Case Study: Digital:Farm**

Improved animal welfare and farm efficiency
